

D703TE0.MTP

Engine	D703TE0.MTP
Displacement (l)	2.1
Cylinders	3 l
Injection	Mech.
Max Power	50.7 kW/ 69 HP @ 2300 rpm
Torque	237 Nm/24.2 kg @ 1600 rpm
Weight	245 Kg
Emission	Fuel Optimized

The **D703TE0.MTP** is a 4-stroke diesel engine with direct injection, mechanical pump and turbocharger.

This water-cooled engine is ideal for use in the most difficult climatic conditions thanks to its **reliability, simplicity of use and ease of maintenance**. The **reduced fuel consumption and noise levels** which characterize this engine are appreciated by end-users, as are its **compact dimensions** which make the engine **easy to install**.

The MTP version includes the starter motor, battery charger alternator, radiator & fan with protective shields, filters and water/oil sensors.

A wide range of optional accessories makes it possible to personalize the product to meet the end-user's requirements.
