

## SUN4105TE2.MTP

Engine	SUN4105TE2.MTP
Displacement (l)	4
Cylinders	4 l
Injection	Mech.
Max Power	74.8 kW/ 102 HP @ 2200 rpm
Torque	371 Nm/37.8 kg @ 1400 rpm
Weight	462 Kg
Emission	Stage II

The **SUN4105TE2.MTP** is a 4-stroke diesel engine with direct injection, mechanical pump and turbocharger.

This air-cooled engine is suitable for use in the most difficult climatic conditions thanks to its **reliability, simplicity of use and ease of maintenance. The reduced fuel consumption and noise levels** which characterize this engine are appreciated by end-users, as are its **compact dimensions** and absence of a water-cooled cooling circuit which make the engine **easy to install**.

The MTP version includes the starter motor, battery charger alternator, filters and oil sensor. It is Stage II emissions compliant.

A wide range of optional accessories makes it possible to personalize the product to meet the end-user's requirements.
